10
Along-pass position (m)
Planned centreline
Executed centreline
Footprint edge
Missed
c Cross-section at one along-pass position (schematic): footprints of width w
w − 2λref
c3 − c2 > w
pass 1
pass 2
pass 3
pass 4
2λref overlap
coverage
ℓ
gap
u
Coverage score of the run:
r⋆ = largest half-gap or edge distance
S = λref + max (r⋆(x) − w/2)
x
no strip missed ⇔ S ≤ λref
